

STAINLESS STEEL  
ASSISTIVE PRODUCTS FOR

**SAFER, INDEPENDENT  
LIVING**

# Supporting Seniors, Empowering Independence

Every day, thousands of seniors face challenges that can limit their comfort and mobility. Simple daily movements - entering a bathroom, getting out of bed, or walking across a room - can become risky without the right support.

## Common Challenges

---

- ✓ Wet floors causing slips and falls
  - ✓ Hip injuries due to loss of balance
  - ✓ Difficulty standing, turning, or stepping up
  - ✓ Reduced mobility after surgeries or chronic pain
  - ✓ Fear of bathroom accidents affecting confidence
- 

## Our Purpose

**True Balance exists to restore confidence, stability, and independence.**

Our assistive stainless-steel (304 Grade) products help seniors move safely, comfortably, and without fear.

With ergonomically curved designs and medical-grade strength, True Balance products provide the reassurance every home and caregiver needs.

## Designed for Safety. Built for Life.

### **1. Human-Centered Ergonomic Design**

Smooth bends, comfortable grip diameter, and safe, rounded edges minimize hand fatigue and increase user safety.

### **2. High Load-Bearing Strength**

Every product is tested to deliver stable support for daily use by seniors and recovering patients.

### **3. Rust-Proof & Hygienic**

The mirror/matt/premium finish (304 Grade Stainless Steel) ensures

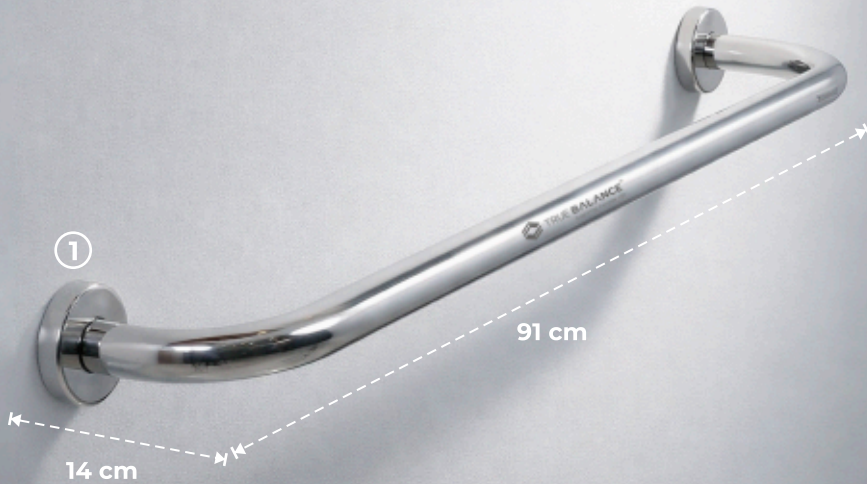

hygiene and is easy to clean, making it ideal for bathrooms and bedrooms.

### **4. Easy Installation**

Designed for quick fitting on tiles, walls, or concrete surfaces with minimal disruption.

### **5. Wide Product Range**

18–20 assistive variants supporting bathrooms, bedrooms, hallways, and rehabilitation environments.

1. TB 1214 C (36") | 2. TB 1212 C (24")  
3. TB 1211 C (15") | 4. TB 1213 C (30") | 5. TB 1210 C (12")

## Comprehensive Safety Solutions

True Balance offers a complete range of assistive stainless - steel products that support seniors at every step of daily movement.

## Our Product Categories

- ◆ Bathroom Grab Bars
- ◆ Long Safety Support Rails
- ◆ Multi-Angle & L-Shaped Bars
- ◆ Bed Safety Rails
- ◆ U-Shaped Assist Bars
- ◆ Mobility Support Handles
- ◆ Wall-to-Floor Assist Systems

TB 1212 C

## What Our Products Deliver

- ◆ Stability during movement
- ◆ Support for sitting and standing
- ◆ Grip and balance assistance
- ◆ Safe mobility in wet and dry areas
- ◆ Confidence for seniors and caregivers

## Bathroom Safety Essentials

Bathrooms are one of the most common places for senior falls. Wet, slippery floors and tight spaces increase the risk of hip injuries and loss of balance.

True Balance bathroom grab bars provide stable support for:

- ◆ **Entering and exiting bathrooms**
- ◆ **Standing up after using showers/toilets**
- ◆ **Turning or shifting weight safely**
- ◆ **Preventing sudden imbalance**

## Featured Bathroom Products

### Straight Grab Bars

Simple, strong, and perfect for walls and doorways.

### L-Shaped Grab Bars

Designed for corner support where multiple grip points are needed.

### U-Shaped Support Bars

Ideal for toilets and showers, giving extended stability.

### Multi-Angle Support Handles

Useful for awkward spaces or varied hand positions.

### Long Shower Rails

Full-length support for movement inside shower areas.

TB 1301 C

## Reliable Support for Everyday Movement

### Bedroom Safety Solutions

- ◆ **Bed Safety Rails**  
Offers fall protection while getting in or out of bed. Perfect for seniors, recovering patients, and people with limited mobility.
- ◆ **Side Rails / Assist Handles**  
Useful during turning, repositioning, or sitting up in bed.

### Mobility Support Solutions

- ◆ **Long Corridor Rails**  
For steady movement through hallways or home pathways.
- ◆ **Stairway Support Bars**  
Provide reliable grip while climbing or descending stairs.
- ◆ **General Assist Bars**  
For doorways, room transitions, and support areas needing additional stability.

### Benefits

- ◆ **Helps prevent night-time falls**
- ◆ **Improves balance during transitions**
- ◆ **Reduces strain on caregivers**
- ◆ **Supports recovery and rehabilitation**

TB 2501 C

## Key Technical Features

- ◆ **High-grade 304/316 Stainless Steel**  
Anti-rust, anti-corrosion, and perfect for humid environments.
- ◆ **Premium Mirror Finish**  
Smooth, easy to clean, and hygienic.
- ◆ **High Load-Bearing Structure**  
Engineered to support daily use with confidence.
- ◆ **Ergonomic Grip Design**  
Comfortable grip diameter and rounded edges for secure handling.

- ◆ **Precision Welding**  
Seamless joints ensure durability and long life.

## Installation Standards

- ◆ Compatible with tile, concrete, and wooden surfaces
- ◆ Multi-point anchoring system for secure attachment.

## Recommended installation heights for seniors:

- ◆ Bathroom Grab Bars: 33 - 36 inches
- ◆ Bed Rails: Aligned with mattress height

## Bathroom Support Bar Variants

Designed to adapt to different bathroom layouts and user needs, True Balance support bar variants provide stable assistance for sitting, standing, and movement. Each configuration is engineered in stainless steel to deliver strength, safety, and long-term reliability in wet environments.

TB 2510

TB 7555 C

## Key Benefits

- ◆ **Multiple Configurations:** Straight, U-shaped, foldable, floor-mounted, and angled designs to suit varied spaces.
- ◆ **Ergonomic Grip Design:** Smooth curves and comfortable diameter for secure handling.
- ◆ **Medical-Grade Stainless Steel:** Rust-resistant, hygienic, and easy to maintain.
- ◆ **Supports Safe Movement:** Reduces fall risk during transfers and daily bathroom use.

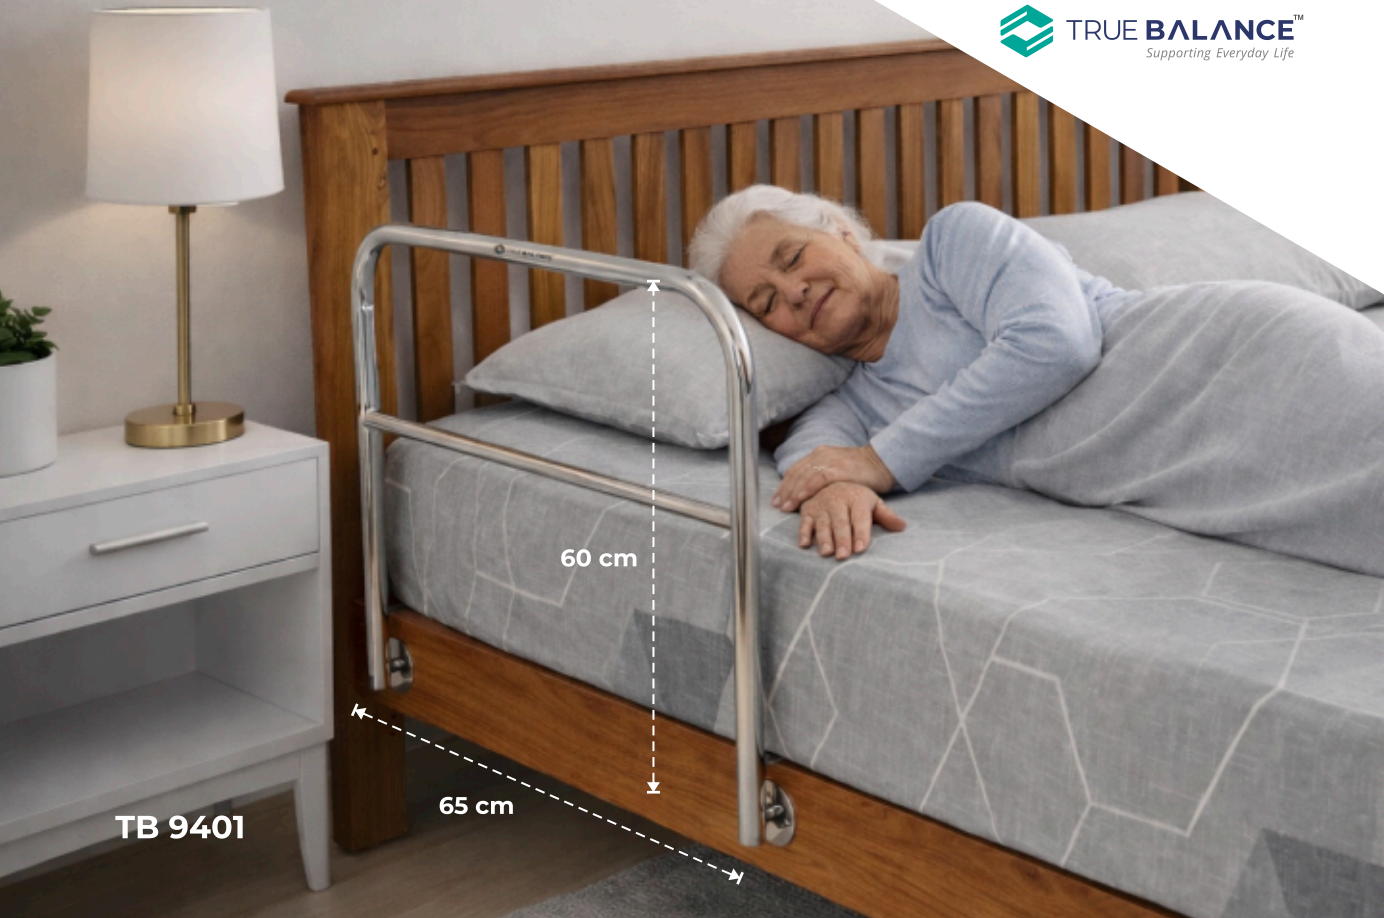

TB 4211 C

## Bedroom and Mobility Support Solutions

True Balance bedroom and mobility support products are designed to enhance safety, comfort, and independence during daily activities. From bed safety rails to walking aids and support stools, each solution provides stable assistance while maintaining a calm, home-friendly aesthetic suitable for senior care environments.

**TB 9401**

**TB 1711**

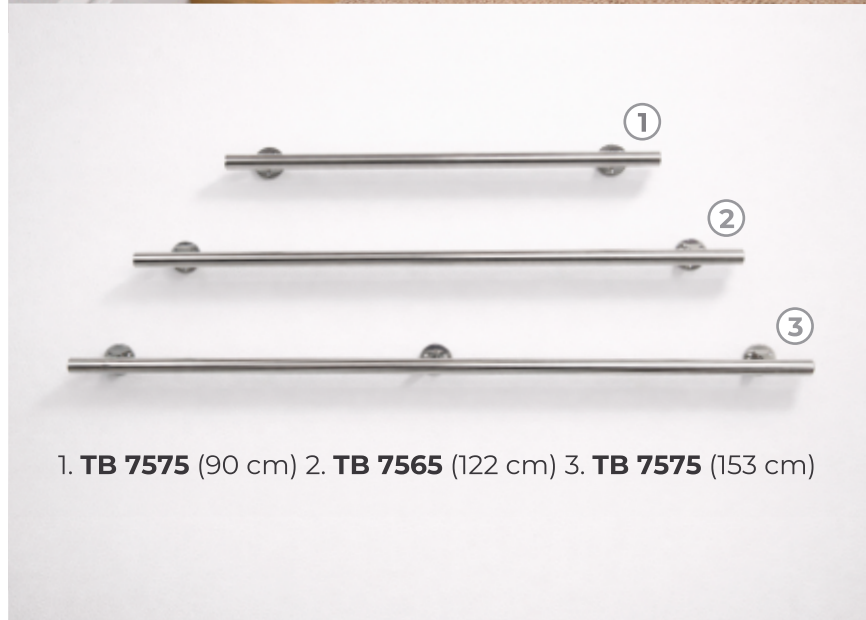

**TB W01**

## Stairway and Long Support Rails

True Balance stairway and long support rails provide continuous, dependable assistance for safe movement across steps, corridors, and transition areas. Crafted from medical-grade stainless steel, these rails offer firm grip, smooth finish, and long-term durability - helping seniors maintain balance and confidence during everyday movement.

## Customization Available Across All Products

All True Balance products can be customized to suit specific spaces, user needs, and installation requirements. Options include customized lengths, mounting configurations, orientation, and finishes-while maintaining the same medical-grade stainless steel quality, strength, and safety standards.

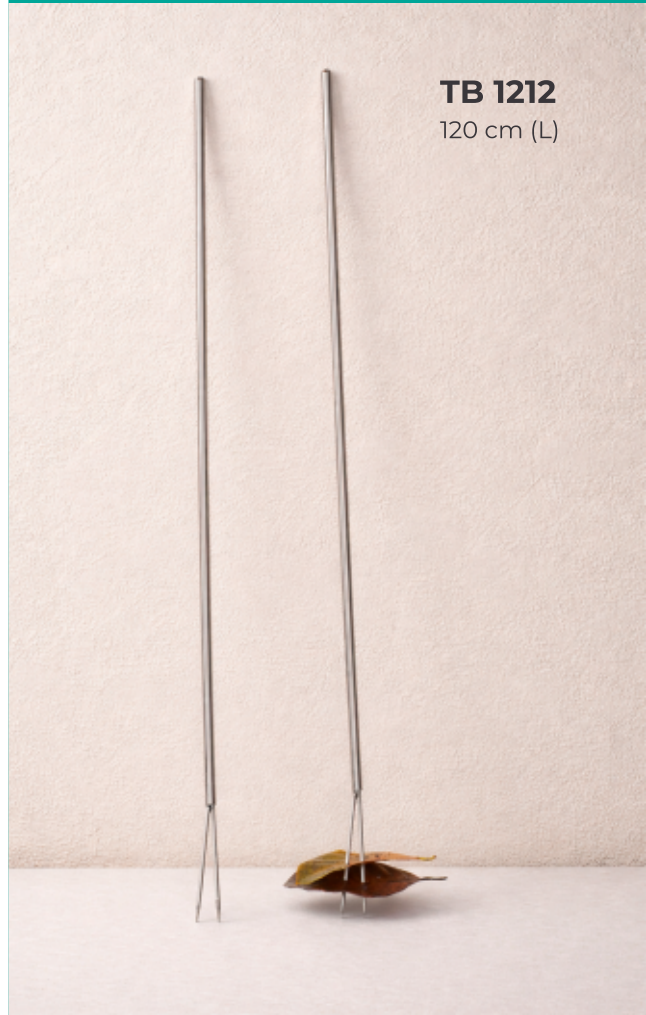

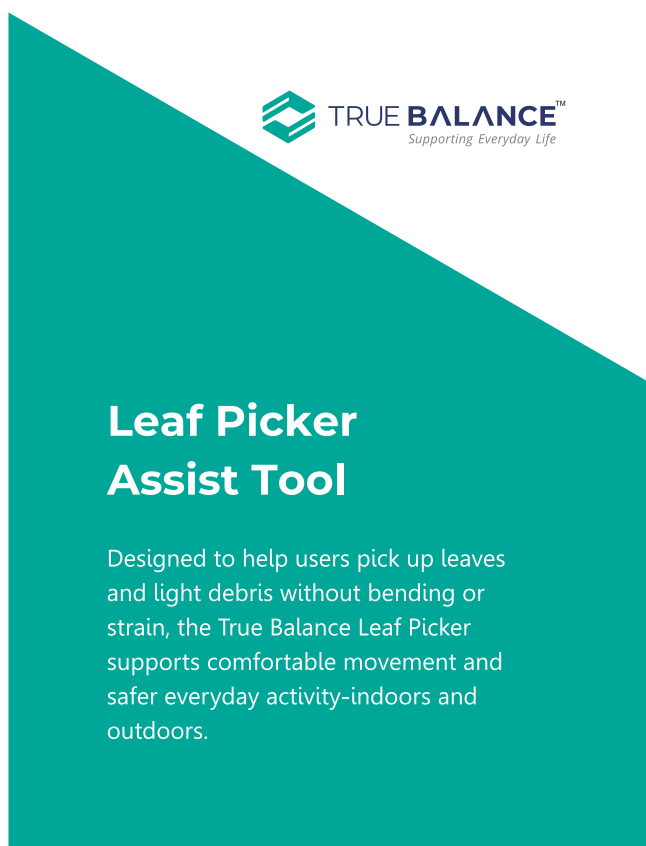

## Leaf Picker Assist Tool

Designed to help users pick up leaves and light debris without bending or strain, the True Balance Leaf Picker supports comfortable movement and safer everyday activity—indoors and outdoors.
